# PASTOR'S VOICE

Senior Pastor  
Isaac Teng

Dear church, Pastor Isaac is on developmental leave from 3 Mar to 25 May. As such, we will also pause the production of 'Pastor's Voice' videos. You can view past videos at <http://www.qbc.org.sg/pastorvoiceeng> or our social media channels ([Facebook](#) / [Instagram](#) / [YouTube](#)). We look forward to Ps Isaac's new videos from June onwards! Thank you and God bless.

**How do we adapt our faith to the exponential rate of new discoveries and changes in culture and society? Learn how God has already equipped us to discern the path through an uncharted future to maintain a vibrant faith and witness.**

**Rev Dr. Samuel Ka-Chieng Law** is Associate Professor for Intercultural Studies and the Dean of Advanced Studies at

Singapore Bible College, and the Pastor-at-Large for the Evangelical Chinese Church of Seattle where he previously served as Elder Board Chair and pastor for English-speaking ministries since 1996. He is also the Eastern Asia Hub Director of Durham University's "Equipping Christian Leadership in an Age of Science." ([eclasproject.org](https://eclasproject.org))

With passions for the Church and for missions, his research interests include contextualized spiritual formation, church revitalization, inter-religious dialogue, and research methodology for missions. Sam and his wife Esther have four children, ages 20 – 30.

## **SESSION 1: Why Contextualise? A Church on the Move**

How do we adapt our faith to the exponential rate of new discoveries and changes in culture and society? Learn how God has already equipped us to discern the path through an uncharted future to maintain a vibrant faith and witness.

## **SESSION 2: Tattoos, Tiger beer, and Transhumanism**

Can Christians have tattoos, discipleship groups drink beer together, or use robots? Cultural and technological changes are exponentially faster than just 50 years ago. Learn what principles the Bible provides to help Christians navigate our 21st-century constant change context.

## **SESSION 3: How Aliens Attack Our Faith**

This session will be a case study to apply contextual principles to the question, "What if we find aliens do exist?" How might that change our faith?

## **SESSION 4: Discerning with – or apart from – AI?**

From ChatGPT to DeepSeek to Gemini, AI is already commonly used daily. But is AI always right? This session will introduce the benefits and dangers of AI and teach Christians how to use it properly and avoid being led astray by it. Principles for developing good prompts and evaluating answers will be provided.
